

**EPoCA** is a monitoring system based on a cloud platform that allows the remote control of all your equipment.

**Protected access**  
multi-device/user

**Parameter configuration**

**Ready-to-use, easy-to-install solution**

#### For the END CUSTOMER

##### ■ HACCP

The HACCP data can be displayed in table and chart form and exported for archival purposes

##### ■ Setpoint setting

Setpoints easily editable by one or more enabled users

#### For the SERVICE

##### ■ DATA RECORDING

Recorded data can be filtered and displayed as desired. The records can be downloaded in Excel, CSV and PDF formats

##### ■ ALARM ALERTS

The system automatically sends alarm alerts to selected e-mail addresses

##### ■ SETTING

The settings of each unit can be changed at any time through secure access

#### WHAT ARE THE ADVANTAGES?

##### ■ FREE ACCESS

Access to the EPoCA system is completely free of charge and does not require a monthly subscription fee

##### ■ IMMEDIATE CONTROL

EPoCA creates an environment where the entire production process and every single appliance is constantly monitored

##### ■ COMFORT

You can access the parameters and all other information on your equipment with the App directly from your phone
